ITEM 8: UPDATE AND DISCUSSION OF SALES PROGRAM FOR THE NACIMIENTO WATER PROJECT. (MERKEL)

Zach Merkel reported on the recent Nacimiento Project subscribers meeting. There was discussion of a potential sales program to be developed including creating a marketplace and means to purchase/sell. The total entitlement is 15,750 AF and is considered drought-resistant, with 5,000 to 10,000 AF currently unutilized. There are many options to consider including temporary vs permanent sales, no auto-renewal of purchase agreements, year-to-year agreements vs multi-year agreements. Buyers' costs could include debit service costs, share of consultants cost, development costs, operations costs, etc. This is raw, untreated water. The best use would likely be to replace agricultural pumping, with supply sent to area(s) of greatest need.

ITEM 9: UPDATE ON WRAC MEETING OCTOBER 7, 2026. (NESBITT)

Lee Nesbitt reported that the meeting focused on the upcoming possible El Nino and preparations for potential high rainfall.

ITEM 10: TREASURER'S REPORT AUGUST AND SEPTEMBER 2026. (STAFF)

Staff presented the report and no questions from the Board were asked.

ITEM 11: NEW BUSINESS

Several topics were discussed. An update on the well monitoring network(s) will be on the next agenda.
